

Consent for the Treatment of Personal Data

Residents in any one of EEA member countries, namely a member country of the EU, and Iceland, Liechtenstein or Norway and United Kingdom are requested to read the following notes.

- Personal data acquired through this registration will be used only for the following purposes:

- (1) Recruitment

- (2) Employment management after employment

- Personal information will be transferred to Japan, and stored in server and archive of the National Institutes for Quantum and Radiological Science and Technology (hereinafter referred to as "QST") in Japan. QST will manage personal information of the respondents in an appropriate manner while the framework certified by the European Commission to transfer personal data between EEA and Japan with respect to compliance with the criteria for data protection is not applicable to public-sector agencies of Japan including QST.

- A respondent has the right to require QST the access to his/her own personal data, correction of his/her incorrect data, and restriction to data processing during the verification of the correctness of personal data.

For inquiries, please contact recruit@qst.go.jp at the personnel department responsible for this registration. If you are unsatisfied with the handling of personal data by QST, you are entitled to file a complaint with the supervisory organization of a member country of EEA.

The respondent has the right to withdraw this agreement at any time, and such withdrawal has no impact on the legality of data processing procedures and /or data transfer, both conducted before the withdrawal.

☐ I agree and confirm the information.
